Vision | Mission

Our Vision

To be a premier centre of excellence in physiological and biomedical research dedicated to enhancing human performance and resilience in extreme and operational environments.

About DIPAS

Defence Institute of Physiology & Allied Sciences (DIPAS), a premier laboratory of the Defence Research and Development Organisation (DRDO), is engaged in conducting physiological and biomedical research to improve human performance in extreme and wartime environments.

DIPAS undertakes research on environmental physiology, nutrition and work physiology, psychophysiology, biomedical engineering and biotechnology. The institute is dedicated to developing life-saving interventions, performance enhancement techniques, and health monitoring systems for defence personnel.
